

# "TOP SECRET"

Since 1947, the U.S. government has publicly claimed that UFOs pose no threat to our national security and that nothing could be gained from continued research into the subject.

Yet, this very same U.S. government has stated in a clear, unambiguous manner, via official documents released through the Freedom of Information Act, that:

- 1) "The USAF no longer investigates such sightings unless they occur on a USAF base." (from AFOSI file 8017D93-0/29, 1980)
- 2) "This is the best documented case on record, and still we have been unable, in spite of thorough investigation, to find the vehicle or other stimulus that scared Zamora to the point of panic." (Hector Quintanilla, former head of Project Blue Book, on the Socorro, N.M. sighting in Studies in Intelligence, Fall 1966)
- 3) "... public interest in disclosure is far outweighed by the sensitive nature of the materials." (District Court decision in the case of CAUS vs NSA, 1980)

In 1984, the story of the government/UFO connection will be told!
